SUMMARY

I'm a motivated computer science student eager to expand proficiency in software development. Proficient in Java and JavaScript, with a focus on web development and algorithms. I am excited to offer fresh perspectives and contribute to impactful projects within organizations.

TECHNICAL SKILLS

Languages: C, Java, JavaScript, HTML, CSS, Reactjs, Nodejs

Databases: MySQL, MongoDB

Developer Tools: Git, Browser Developer tools, Visual Studio Code, Postman

PROJECTS

HabitHub

Reactjs, Nodejs, Mongodb, Express

- Integrated Redux for state management.
- Integrated an interactive calendar feature, allowing users to select specific dates and store tasks, enhancing planning and organization capabilities.
- Implemented robust authentication and authorization systems.

Kiddie Corner

Reactjs

- Developed a dynamic ToyStore website using Reactjs, offering a seamless browsing experience for users without page reloads, resulting in faster navigation and improved user engagement.

WeeIP

Reactjs, Nodejs, MongoDB, Express

- Utilized RESTful API architecture to facilitate seamless communication between the frontend and backend, enabling fast and efficient data retrieval and manipulation, resulting in a responsive and performant user experience.

EDUCATION

Vignan Institute of Technology and Science - B.Tech

Computer Science Engineering CGPA: 8.02/10.00

Hyderabad, Telangana, India

2020 - 2024

Narayana Junior College - Intermediate.

Maths Physics Chemistry (MPC) Marks: 958/1000

Hyderabad, Telangana, India

2018 - 2020

Trinity High School - SSC

GPA: 9.0/10.0

Mancherial, Telangana, India

2017 - 2018

COURSE WORK

Data Structures

Object Oriented Programming

Computer Networks

Database Management System

Operating System

SOFT SKILLS

Problem Solving

Time Management

Adaptability
